

## Environmental Policy Statement

Utilergy Gas provides operational and engineering services to large infrastructure clients.

We recognise that our activities, the decisions we make and the materials we use can have an effect on the environment, sustainability and the social conditions for communities. As such, we are committed to complying with all relevant environmental legislation, other important environmental obligations, protecting the environment and pollution prevention.

Our aim is to promote environmental awareness, best practice and legal compliance amongst our team, and have a positive influence on the environmental performance of our service providers and contractors.

We will take all reasonably practicable steps to ensure that the appropriate environmental factors are taken into account in all operations and works. A programme of continual environmental improvement shall be achieved through the implementation of procedures, learning and the setting and review of environmental objectives and targets.

We commit to: -

- 1) comply with all relevant current environmental legislation and industry standards and will ensure that all staff are equally aware of the commitment.
- 2) Promote environmental awareness, practices and procedures throughout operations and ensure that staff are suitably trained in environmental issues.
- 3) Communicate and provide information to staff relevant to environmental information.
- 4) Comply with and maintain a system capable of certification to ISO 14001:2015
- 5) To dispose of materials in safe and responsible manner, minimising environmental damage and pollution
- 6) To control the impact of Company work on the environment, the local community and the general public to a minimum as far as reasonably practicable.
- 7) Promote and improve standards and methods of work to ensure efficient use of materials and energy, minimising waste.
- 8) To sustainably procure materials and services which reduce impact when sourcing
- 9) To establish standards and practices that tailor customer environmental requirements.
- 10) Making this policy available to members of the public.

The company expects all of its staff and service providers to contribute to the fulfilment of this Environmental policy, therefore maintaining and improving the environment which we live. The Managing Director has ultimate responsibility for implementation of the Environmental Management policy.

This policy is fully supported by the Directors of Utilergy Gas and will be monitored and reviewed annually.
